

CORONAVIRUS (COVID-19) 2ND WAVE

HAPPY EASTER !

Public Works: Resumption of operations

With the arrival of milder weather conditions, the Municipality's Public Works Department was able to resume its operations. The blue-collar employees have been called back to work since March 15th and are now ready to start another season of maintenance of the various municipal infrastructures.

Work has already begun: the two graders are on the roads to optimize spring conditions and a team has been dedicated to repairing potholes during the thaw period.

Two major construction projects are planned for the coming months: the Mountain Road project and the Tremblay Road paving project.

Town Hall closed to the public

Following the latest government directives regarding the current pandemic situation, City Hall must remain closed to the public. However, the employees of the Municipality who are not working within the framework of essential service operations continue to offer you their services to the best of their ability:

Services maintained

- Urban Planning Department;
- Taxation and Finance Service Departments;
- Fire Department;
- Collection of residual materials;
- Snow removal operations;
- Road work;
- Activities at the wastewater treatment plant and drinking water filtration plant;
- The Commissioner of Oaths
- The processing of access to information requests (partially);

Services suspended

- Town Hall closed;
- Both libraries (Luskville, Quyon) with the exception of the loan counter and students;
- All activities in the three community centres are cancelled (Luskville, Quyon, Quyon Women's Institute);
- The distribution of bottles for water testing.

A brand new image for the Municipality!

The Municipality is getting ready for a new look with the launch of a brand new website that is much more functional and practical for taxpayers. Believing in the development of our next generation, it is with pride that the Municipality has forged links with the Cégep de l'Outaouais a year ago to solicit the contribution of their graduating students in the field of multimedia. Since then, the talent of several students has been put to work on this major website redesign project. It should be noted that the final stages of the finalization of this new site were carried out by a single student and these final stages represent today the success of her end-of-study internship.

It is important to mention that this school project was carried out within the framework of a "business course" and therefore carried out under the supervision and guidance of their qualified teacher Mr. Jean Boudreau.

Therefore, be vigilant as the Municipality will proceed, in the coming weeks, to the unveiling of this new website, that meets the quality standards of the market.

Table de développement social des Collines-de-l'Outaouais

Housing survey project in the MRC des Collines-de-l'Outaouais - *Citizen surveys*.

The Table de développement social des Collines-de-l'Outaouais (TDSCO) is conducting a survey on housing in the MRC des Collines-de-l'Outaouais.

Do you live in one of the 7 municipalities of the Collines-de-l'Outaouais?

Participate in the survey to share your reality and needs with respect to housing.

The survey will be available on the TDSCO website: <https://www.tdsco.org/>.
