**Gatineau, September 3, 2019** -The Réseau BIBLIO de l'Outaouais et the Fabrique mobile de l'Outaouais are proud to announce 30 interactive and participatory virtual reality workshops, particularly in libraries and youth clubs, in the four MRC of Outaouais. Workshops are free and available in French and English.

During these workshops, participants will have the chance to get in touch with virtual reality through a set that will be available on site. They will immerse themselves in this universe by participating in cooperation activities that will bring out their creative and imaginative side!
