

Report of corrections – March 3, 2015

- Organization chart adopted on January 20, 2015 (15-01-2259)
- By-law 20-13 abrogating by-law 07-12 concerning public nuisances on the territory of the Municipality of Pontiac (13-09-1693)

As provided for by article 202.1 of the Municipal Code, this present report constitutes a report of clerical errors made by the acting Director General:

“The Secretary-treasurer is authorized to modify the minutes of a meeting, a by-law, a resolution, an order or other acts in Council, in order to correct an error that is evident and simply detected by reading the documents that were submitted to support the decision taken. In such case, the Secretary-treasurer attaches to the original version of the modified document, a report of correction that was done and tables a copy of the modified document with this report at the next Council meeting.”

Two errors were corrected: the first consists of the organization chart adopted on January 20, 2015. The document tabled for adoption contained 2 errors with respect to titles of unionized positions. These errors have been corrected to show the official titles according to the collective labour agreement.

The second error consists of the amount of fines prescribed in by-law # 20-13 that were inverted. Contrary to custom and for Council's information, as shown in the English version of this by-law, the fines prescribed for an individual were greater than those for a corporate entity. This error was corrected and the chart describing the penalties was modified so that the fines for a corporate entity are greater than those for an individual.

Benedikt Kuhn, acting Director General
